Then the launch of the **'Go Green project'** made the environment smile by making an effort to uphold our environmental responsibility through tree planting and clean-up initiatives this activity was done by the members and further more even an effort was made to make the community participate so as to create a sustainable environment for the future generation.

As culture is a vital aspect for all Africans thus the

#### **'Embrace**

**heritage'** project aimed to reconnect youth with their

cultural values through online platforms, the members of TGAF took the initiative of creating awareness about cultural values of their own heritage by wearing their cultural outfits and stating key cultural values of their own heritage, as of today's youth feel shy of their heritage instead of feeling pride.

Another project touched its hand on health and hygiene, **'Safe hands'** project emphasized the importance of health through clean hand practices as epidemics and pandemics were and still is a huge medical issue in the country.

Furthermore, **'Skonga package' project** endeavored to mold young individuals into patriotic leaders, our dedication to shaping a brighter future for African youth extended beyond our programmatic endeavors.

Also during 2022, The Great African Foundation actively **participated in numerous summits and seminars,** both *nationally and internationally,* we facilitated

online international conferences, fostering knowledge exchange and diverse perspectives to contribute meaningfully to discussions on youth development.

Recognizing that progress thrives through unity, we tirelessly forged strategic partnerships with businesses, NGOs, and community organizations. By pooling resources and expertise, we expanded our reach, creating a synergistic ecosystem of support for young people.

And finally, **'Thanks giving charity'** extended a helping hand to the needy, marking a day of gratitude for our Foundation's three years of achievements.

Thank you for giving me the opportunity to share my story. It's an honor to reflect on how the Foundation has empowered me to make a positive impact in my community. Witnessing the Foundation's incredible work inspired me to get involved. With their guidance, I've been able to volunteer at a local orphanage, teaching English and forming meaningful connections with the children.

In 2019, I discovered TGAF at Save Africa Orphanage Centre. In 2021, Derick invited me to volunteer as Finance Manager. Despite initial doubts, I embraced the opportunity. Now, as General Secretary, TGAF has shown me the power of action in creating real change. Even while studying in Kenya, I remain committed to TGAF's supportive community. Excited to contribute to the Hearts for Autism project, I aspire to work as a psychologist within TGAF in the future.

## Supporting the Hearts of Autism and How Your Contributions Make a Difference

As we gear up for our upcoming gala dinner during World Autism Week, it's essential to reflect on the meaningful impact of your support. Your contributions to the Hearts of Autism fundraising initiative go a long way in enhancing the lives of children living with autism and their families. Here's how your generosity will be utilized

I. Providing Caregiver Support: Your donations will directly contribute to paying caregivers who provide essential support and assistance to children living with autism. These dedicated individuals play a crucial role in ensuring the well-being and development of these children.

IV. Supporting Basic Needs: We recognize the importance of addressing the basic needs of children with autism and their families. Your donations will assist in providing essential resources such as food, clothing, and shelter, ensuring a stable and nurturing environment for these children to thrive..

V. Fostering Love and Care: Above all, your contributions will help create a supportive and compassionate community where children with autism feel loved, accepted, and valued. Through various programs and initiatives, we aim to promote inclusivity, understanding, and empathy towards individuals with autism
